

Oklahoma Wheat Variety Report

Oklahoma Field Office · P.O. Box 528804, Oklahoma City, OK · (405) 415-8850 · nassfospr@nass.usda.gov
Cooperating with the Oklahoma Department of Agriculture, Food and Forestry and Texas Department of Agriculture

Gallagher Remains Top Wheat Variety for 3rd Year Running

Gallagher is the number one wheat variety planted for the 2018 wheat crop in Oklahoma. Doublestop CL Plus and Bentley tie for second this year. Wheat growers were surveyed by the USDA-NASS Oklahoma Field Office as part of the December Agricultural Survey and Crop Acreage and Production Survey. Funding was provided by the Oklahoma Wheat Commission in cooperation with the Department of Plant and Soil Sciences at Oklahoma State University. Survey results are provided in the following tables, with percent of acres planted for the 2018 crop year by variety and broken out by Agricultural Statistics District and Oklahoma Grain Shed. Data provided by Oklahoma wheat producers is the foundation of this report. The Oklahoma Field Office sincerely thanks all producers who cooperated in this important survey.

Wheat Varieties: Percentage of Seeded Acres, Oklahoma, 2014-2018^{1 2}

Variety	2014	2015	2016	2017	2018	Variety	2014	2015	2016	2017	2018
